A PhotoTheology Palace Entry Course

Power of the Lamb Ministries

WELCOME TO THE PALACE

You're about to learn a revolutionary method for memorizing Scripture that transforms chapters into unforgettable visual "frames" – just like the frames of a movie playing at 24 frames per second.

Why 24FPS?

Movies run at 24 frames per second because that's the threshold where individual images blend into continuous motion. Similarly, when you learn to see each chapter of Genesis as a single vivid "frame," the entire book becomes a continuous story that plays effortlessly in your mind.

The Math is Perfect:

- Genesis has 50 chapters
- $24 + 24 = 48$ (our two main "reels")
- Plus 2 transition frames = 50 total
- Memorize ~ 8 frames per day $\times 6$ days = Complete mastery

THE PHOTO-THEOLOGY PALACE

THE 24FPS METHOD EXPLAINED

Each Chapter = One Frame

Every chapter of Genesis has a **dominant visual image** – a single picture that captures the essence of that chapter. When you can see that frame, you can recall the chapter.

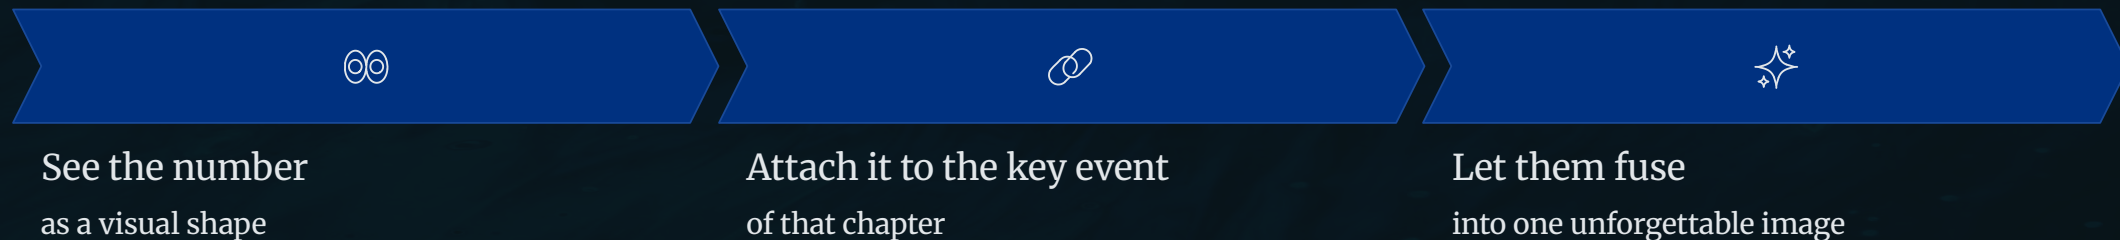

The Number IS the Picture

Here's the secret: **The chapter number itself becomes part of the visual mnemonic.**

For example:

- Chapter 1 = A single world with a "1" on it (Creation)
- Chapter 22 = "Two go up, two come down" (Abraham & Isaac on Moriah)
- Chapter 37 = A coat with "37" on it (Joseph's coat of many colors)

How It Works

A film reel with film strips emerging from it, set against a dark blue background. The film strips are labeled with numbers 001, 002, and 003. The reel is ornate and sits on a dark blue cloth.
